

Tauragė region

Where green energy feeds traditional industry

Your business location in Lithuania

“ When moving some of our production to Taurage, our goal was that the Egersund name should become part of the industry in the area for a long time to come. It was its combination of proximity to Klaipeda’s sea-port and Palanga airport, the region’s highly qualified talent and the green energy options available which led us to choose Taurage as the perfect location for our business. **”**

*Anders Myklebust, Managing Director,
Egersund Net*

Key facts

1

The region offers an established and experienced production base for the key industries of agriculture and food processing.

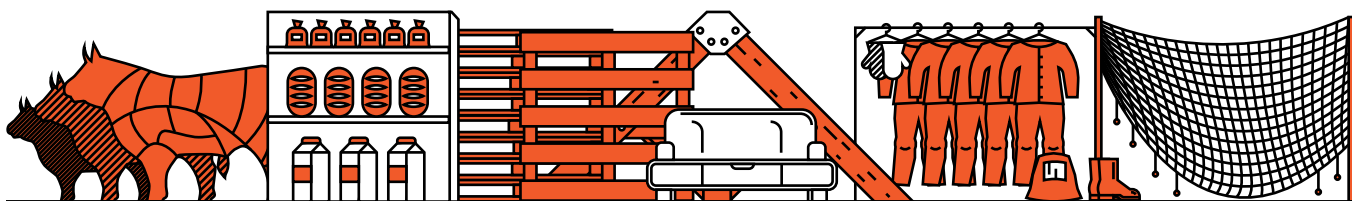

2

The region is conveniently located, with well-developed infrastructure: Tauragė offers direct entry to Kaliningrad (Russia), as well as a developed private industrial park which is currently home to a number of international businesses, including companies from Scandinavia and the US.

3

Green energy (from biomass, wind power, hydro energy, and solar systems) is produced widely within the region, ensuring reduced heating costs for local businesses.

PROTECTION AGAINST EXTREMES

We are a government agency that provides free investment advice, contacts and data. Let's talk if you need someone to:

INFORM you on business costs, labour, tax & legal settings and other business areas.

CONNECT you to partners and organise your business meetings in Lithuania.

FACILITATE the set up and launch of your company and access government financial support and a range of training schemes.

SUPPORT your investment by lobbying for more business friendly laws and assisting in one-off problems.
